

In **Literacy**, I will be writing letters to Willy Wonka based on our class book- Charlie and the Chocolate Factory. I will also write my own chapter in a new room in the factory. I will then use what I have learned to write a balanced argument: Should we stop eating chocolate?

In **Maths** I will be learning about time, including using technical vocabulary related to time and understanding the differences in the duration of different events. I will also be finding the perimeter of some 2D Shapes and continuing to learn my times tables in an effort to pass at least the Ruby stage of Diamond Dash.

In **Geography**, I will be finding out what chocolate is made of and where cocoa beans grow. I will be discovering the physical features of the countries where cocoa grows as well as finding out about the people who farm them and issues affecting them such as deforestation and fair trade.

Topic title: **Should we stop eating chocolate?**

Subject Focus: **Geography**

In **History**, I will learn about the Aztecs and the Mayans who first discovered chocolate. In **Art** I will be creating my own chocolate wrapper, using colour to grab people's attention. In **Wise Time** I will learn about healthy life styles and a healthy brain.

**PE** in Class 3 is on Tuesdays and Fridays this half term. I will need dark shorts and my Jerry Clay Academy t-shirt (or a white t-shirt) for indoor PE and a dark tracksuit for outdoor games. I will also need a spare pair of trainers/pumps. For safety reasons I will not be allowed to take part if I do not have suitable footwear.

I will receive a reading task to complete for homework weekly. This will be set on a Friday and will need to be completed by the Wednesday after.

I need to practice my times tables for Diamond Dash and will receive weekly spellings.

In **Science** this half term, I will learn about healthy food and teeth. I will learn about changing states when objects are heated and cooled as well as irreversible changes such as cooking and burning.
