

In **Literacy**, I will be looking at improving my writing skills. I will be writing biographies on Charles Darwin as well as using films as a hook to write a personal recount. Throughout the half term I will be looking at improving my SPaG knowledge as well as developing my reading skills.

In **Maths** I will be continuing to develop my number and calculation skills and I will be looking at different worded problems throughout the half term. I will also be developing my knowledge further when looking at measurements and how I can convert units of time, weight and length.

In **Science**, I will be focussing on looking at how animals and humans have evolved. I will be looking at what DNA is and how animals and humans inherit characteristics from their parents.

Topic title: **Extinct or Alive?**

Subject Focus: **Science**

In other areas of the topic, I will learn about how animals have adapted throughout time. In **History and Geography**, I will be looking at the theories of evolution and we will be focusing on Charles Darwin and the Galapagos Islands.

PE in Class 6 is on Tuesdays and Wednesdays. I will need dark shorts and my Jerry Clay Academy t-shirt (or a white t-shirt) for indoor PE and a dark tracksuit for outdoor games. I will also need outdoor trainers/pumps. For safety reasons I will not be allowed to take part if I do not have suitable footwear.

I will receive homework weekly. This will be set on a Wednesday and will need to be completed by the following Monday.

I will always have times tables to learn and reading to do as my book is checked daily.

In **ICT** this half term, I will continue to develop my skills when creating videos and films using iPads. We will be thinking creatively about developing our own adverts for JCA.
