

In **Literacy**, I will be looking at instructions for different experiments we will be doing in our science lab. I will also be writing an recount towards the end of the half term. Spelling as well as sentence structure will be a key focus throughout this.

In **Maths** I will continue to learn about place value by counting, reading and writing numbers to 100 and finding 1 more and 1 less. I will then learn about the 4 operations: addition, subtraction, multiplication and division over the course of the half term.

In **topic**, I will be learning about water! I will be looking mainly at the importance of water to the world as well as looking at how both humans and animals rely on it for many things such as growth. I will be using our science lab and the outdoor learning area to help with this.

Topic title: **Why is water precious?**

Subject Focus: **Science/ Geography**

In **Art**, I will be working with Miss Bairstow, an art specialist, focussing on water in line with our topic. I will be using music as an inspiration for my ideas. I will learn about different sketching and shading techniques and using watercolours.

PE in Class 1 is on Tuesday and Thursday. I will need dark shorts and my Jerry Clay Academy t-shirt (or a white t-shirt) for indoor PE and a dark tracksuit for outdoor games. I will also need a spare pair of trainers/pumps. I will be learning about games and athletics during this half term.

I will receive spelling homework weekly. This will be set on a Friday and will need to be completed by the Wednesday after.

I will be given a Maths task every other week.

I should also be practising my 2,5 and 10 times tables and phonics regularly and reading my school book everyday.

In **ICT** this half term, I will be learning about PowerPoint and other software to create a talking book. I will look at using sounds recording equipment to record sounds for my story to share.
