

In **Literacy**, I will be considering communities through the story 'bugs life'. Here, I will focus on writing a shape poem linked to a specific bug, before positioning myself in the role of an ant. I will then write an informal letter to a friend describing the relationship I share with the grasshoppers

In **Maths** I will continue to learn about the four number operations; add, subtract, multiply and divide. I will be learning how to multiply and divide a 2-digit number by a 1-digit number using concrete objects as well as using written numbers. I will then be developing my understanding of numbers and statistics to solve one and two-step problems.

In **topic**, I will be learning about community. I will be looking at local geography and exploring the local area to determine what is present before building my own community. This will include, thinking about religion, culture physical and human geography.

**Topic title:** **What is community?**

**Subject Focus:** **Geography**

PE will be mostly indoor learning key skills to play benchball as we have a competition in February. However, we will complete some PE outdoor. I will need dark shorts and my Jerry Clay Academy t-shirt (or a white t-shirt) for indoor PE and a dark tracksuit for outdoor games. I will also need a spare pair of trainers/pumps.

I will receive spelling and a reading homework weekly. This will be set on a Friday and will need to be completed by the Wednesday after.

I will be given a Maths task every other week.

I should also be practising my times tables regularly.

In **Art**, I will be looking at the artist Joe Macgown, here I will be sketching and adding greater detail before using different techniques to create pictures. This will also include using skills in textiles to produce 3D butterflies.

In **ICT** this half term, I will continue to learn about coding. I will be looking at using Scratch to finish producing a storyboard before identifying and correcting mistakes on Scratch programmes
